

Is your
child
age
8-11?

*"She can be authentic and seen,
she feels safe and understood"*

-Parent feedback

Has your child got a diagnosis of

ADHD?

Wondering what to do next?

Set them up to know how to manage and cope well

Join us for a new term of the **Childrens therapeutic group** offering children:

- An understanding of how to manage their ADHD now & in the future
- A celebration of their individuality
- Emotion regulation skills
- A sense of community
- A boost to self esteem
- Learning whilst having fun
- Cost effective alternative to 1:1 therapy

Evidence based
Designed & run by a Clinical psychologist
experienced working with ADHD
